RESPONSE TO RESTRICTION REQUIREMENT

SIR:

This communication is responsive to the Restriction Requirement mailed March 23, 2007.

In response to the Restriction Requirement, applicants elect, with traverse, the claims of Group I, i.e., claims 1 to 8 for further prosecution in this application. This election is made without prejudice to the filing of a divisional application directed to the subject matter of non-elected method claim 9.

This election is made with traverse because the present application is a 35 U.S.C. §371 of PCT/JP03/13732. Therefore, PCT unity of invention rules apply. Non-elected claim 9 is a method for producing the product of claims 1 to 4. It is provided in 37 C.F.R. § 1.475(b)(1) that there is PCT unity of invention for a product and a process specially adapted for the manufacture of said product.

**CONCLUSION**

An action on the merits is respectfully requested.

Respectfully submitted,
